Reliable engine.**

**Comfortable living area which sleeps 3 with a good amount of storage; fridge; hob; hot and cold water; blown air heating; laminate flooring; shower and cassette toilet.
240 volt hook up; leisure batteries; and battery isolator.**

Horse area specifically designed for carriage driving - to take 2 ponies/1 horse and 1 pony with rubber flooring and wall lining. Area at the rear of the box for carriage up to 125cms wide (the width of most HDT competition vehicles). Horses travel rear facing extremely happily and comfortably. Electric tail-lift at the rear of the box allows a carriage to be loaded and unloaded easily using the specially designed trolley.

Although not necessary, a re-spray would make this an outstanding horsebox.
